

Disposable 3-Ply Earloop Face Masks

The masks are sold by the box. There are 50 masks in each box. The Face Masks are 3-Ply and secure to your face with earloops.

CDC continues to study the spread and effects of the coronavirus across the United States. The virus can spread between people interacting in close proximity—for example, speaking, coughing, or sneezing—even if those people are not exhibiting symptoms. The CDC recommends wearing face coverings in public settings where other social distancing measures are difficult to maintain (e.g., grocery stores and pharmacies), **especially** in areas of significant community-based transmission.

This disposable 3-ply earloop face mask provides protection in public and the workplace and serves as essential PPE. (Personal Protective Equipment)

The CDC recommends that this mask be worn as a single-use face covering. Use caution when removing the mask and treat every worn face mask as if it is contaminated. If wearing gloves, remove the face mask before removing the gloves. Wash hands thoroughly after removing the mask and dispose of it in the trash ***immediately***.

Do NOT put the worn mask on the counter, desk, or car seat!
